

POB-ORBITAL POSITIONER

Posizionatore orbitale per saldatura borchie e raccordi su cilindri oleodinamici. Orbital positioner for to weld join in a hydraulic cylinder Posicionadores orbital para la soldadura de tachones y empalman sobre cilindro hidráulico.

Technical characteristics

Minimum diameter of part to be weld	mm	10
Maximum diameter of part to be weld	mm	200
Minimum diameter of the work piece	mm	40
Maximum diameter of the work piece	mm	250 (450*)
Maximum length	mm	2000
Rotation speed	rpm	2,6 – 26
Applicable welding process		MIG – TIG
Electric supply	Volt	230
(* with optional prisms)		

Item	Description	Price CHF
POB	Machine completed with base and standard prisms	33820.00
POB/CPS	Special profile cam	3040.00
POB/MPSR	Mandrel for positioning and nipples support	342.00

Machines are supplied compile with electric control panel with all functions
